Looking for gifts for the art and photography aficionado in your life? Reviewing the “Best of the Year” lists has revealed magnificent books from Penguin Random House imprints and client publishers. Many of the following books are works of art themselves, and for a

range of artistic interests:

**RAVEN CHACON: A WORM'S EYE VIEW FROM A BIRD'S BEAK** by  
Alison Coplan, Katya Garcia-Anton, Stefanie Hessler

The first ever monograph on the groundbreaking work of artist and composer Raven Chacon.

Raven Chacon is a composer and artist creating musical experiences that explore relationships among land, space, and people. In an experimental practice that cuts across the boundaries of visual art, performance, and music, Chacon breaks open musical traditions and activates spaces of performance where the histories of the lands the United States has encroached upon can be contemplated, questioned, and reimagined. In 2022, Raven Chacon became the first Native American to win the Pulitzer Prize for Music, and was awarded a prestigious MacArthur “genius” fellowship in 2023.
